EXPERTISE

My research centers on forecasting the likely ecological and socioeconomic impacts of global climate change on coastal marine ecosystems, and on the creation and testing of products and indicators that are scientifically accurate, understandable, impactful, and useful by a diverse array of stakeholders. I am active in the development of educational materials for K-16 students, focused on climate change impacts and societal adaptation to climate change. I also serve as a member of the National Sea Grant Advisory Board, and am interested in the development of national and international environmental policy.

EDUCATION

Post Doctoral Researcher, Stanford University, Hopkins Marine Station, (Mark Denny, supervisor) 1997-1999.
Ph.D 1997 University of Washington; Zoology (Thomas Daniel, PhD supervisor)
M.S. 1991 Northeastern University; Biology (Marine Biology; Kenneth Sebens, MS supervisor)
B.S. 1989 Cornell University; Biology (Ecology and Evolution; C. Drew Harvell, research supervisor)

EMPLOYMENT HISTORY

Professor, Department of Marine and Environmental Sciences and School of Public Policy and Urban Affairs (joint appointment), Northeastern University, Boston, MA Jan 2013-Present
Affiliated faculty, Department of Civil and Environmental Engineering, Northeastern University, 2016-present
Director, Sustainability Science and Policy Initiative, Northeastern University Jan 2013-Dec 2015.
Director, Environment and Sustainability Program, University of South Carolina 2011-2012.
Special Advisor on Sustainability, Office of the Vice President for Research, University of South Carolina, 2011-2012.
Professor, University of South Carolina, Columbia, May 2009-Dec 2012.
Associate Professor, University of South Carolina, Columbia, July 2004-May 2009.
Assistant Professor, University of South Carolina, Columbia, June 1999-July 2004.
Instructor, Three Seas Marine Biology Program, Panama, 2003-present

AWARDS, HONORS, AND FELLOWSHIPS

Google Science Communications Fellow (*Climate Change*), 2011

Ray Lankester Fellow, *Marine Biological Laboratory, Plymouth England*, 2007

Explorers Club, *Fellow National*, 2007

Aldo Leopold Leadership Fellow, 2005

Marine Educator of the Year, South Carolina Marine Educators Association, March 2003.

PEER-REVIEWED PUBLICATIONS (* indicates student authors, 6568 citations, h index 44, i10 index 76)

2017

INVITED PRESENTATIONS

International

- Dongshan Marine Station, Xiamen University, **China**, May 2017.
- United Nations General Assembly, High level meeting on climate change and sustainability. March 2017.
- Batsheva de Rothschild Seminar: Environmental Science and Policy- Challenges in the South Eastern Mediterranean, Mt. Carmel, **Israel**, November 2015 (Invited keynote)
- Aquatic Biodiversity and Ecosystems, Liverpool **U.K.**, September 2015 (Invited plenary)
- Second XMAS Conference, Xiamen, **China**, January 2015
- ICUBE Workshop: Gastropod thermal biology and climate change in the tropics, **Brunei**, December 2014
- EUROMED conference, Naples, **Italy**, November, 2014
- HETEROCLIM: The response of organisms to climate change in heterogeneous environments, Loches, **France** June 2014
- North Pacific Marine Science Organization (Invited speaker, Science Board Symposium); Nanaimo, British Columbia **Canada** October 2013
- Marine Ecocivilization Conference (Invited speaker), Wenzhou **China**, September 2013
- World Congress of Malacology (Invited symposium speaker), Azores, **Portugal** July 2013
- University of **Hong Kong**, January 2013.
- Iraq** Ministry of Education, Dec. 2012
- University of Basrah, Basra, **Iraq**. Nov. 2012
- International Union of Biological Sciences (IUBS), Suzhou, **China**, July 2012

Xiamen University, **China**, June 2012
 Society of Experimental Biology, “Survival in a changing world” Awaji Island, **Japan**, August 2009.
 Third International Symposium of Integrative Zoology, Chinese Academy of Sciences. Beijing, **China**
 (symposium keynote) July 2009.
 INTERMED: The impact of climate change on Mediterranean intertidal communities: losses in coastal
 ecosystem integrity and services” (Keynote); Palermo, **Italy**. March 2009
 Fourth International Conference in Africa for Comparative Physiology and Biochemistry. Symposium:
 Physiological mechanisms in coping with climate change. Masai Mara National Reserve, **Kenya**. July
 2008
 Fourth International Conference in Africa for Comparative Physiology and Biochemistry. Symposium:
 Physiological responses to temperature: Linking ecology with evolution. Masai Mara National Reserve,
Kenya. July 2008.
 Society of Experimental Biology, Symposium "Climate change: from genes to ecosystems" Marseilles,
France. July 2008.
 CSIRO Symposium (plenary speaker), “In Hot Water: preparing for climate change in Australia’s coastal
 and marine ecosystems.” State Library of Queensland, Brisbane, **Australia** November 2007.
 Swire Institute of Marine Science, University of Hong Kong, International Conference on Ecophysiology of
 Marine Organisms, **Hong Kong**, January 2007.
 Institut de Recherche sur la Biologie de l’Insecte, Université de Tours, France, December 2005.
 BIOINC conference, Instituto de Estudos do Mar Almirante Paulo Moreira, Cabo Frio, **Brazil** (Keynote
 Address), July 2005.
 Centre for Research on the Ecological Impacts of Coastal Cities, University of Sydney, **Australia**,
 February 2005.
 Bamfield Marine Station, British Columbia, **Canada**. October 2004.
 Canadian Society of Zoologists, Wolfville, NS, **Canada** (Intertidal Physiological Ecology Symposium), May
 2004.
 Bamfield Marine Station, British Columbia, **Canada**. October 2003.
 International Temperate Reef Symposium, Christchurch, **New Zealand** (Symposium:
 “Climate change and temperate reef ecosystems: integrating space and time”). January 2003.
 Bamfield Marine Station, British Columbia, **Canada**. November 2002.
 American Society of Limnology and Oceanography, DIALOG III symposium, **Bermuda**
 October 1999.
 Eighth International Coral Reef Symposium, Panamá City, **Panamá**, (Symposium: “Flow and coral reefs:
 from micro- to meso-scale effects”) June 1996.

National

MultiAgency Rocky Intertidal Network (MARINE), Humboldt, CA. February, 2017. (Invited keynote).
 Fourth International Sclerochronology Conference, Portland, Maine, June 2016 (Invited keynote)
 Ocean Global Change Biology Gordon Research Conference, Waterville Valley, NH, July 2014
 USGCRP, National Climate Assessment, Washington, D.C. March 2013
 American Society of Limnology and Oceanography, New Orleans, LA, Feb. 2013. “Tick Talk:
 Communicating climate change”
 Western Society of Naturalists, Presidential Symposium. Seaside, CA Nov 2012
 GreenGov, White House Council on Environmental Quality, Washington DC, November 2011
 American Association of Anatomists, (Symposium, Biological Consequences of Climate Change), April
 2010.

Presidential Awards for Excellence in Math and Science Teaching (keynote), National Science Foundation, Washington, D.C., December 2010

Climate Change and Marine Systems: Managing for Resiliency. Stanford Law School, April 2009.

Estuarine Research Foundation, Providence, R.I. November 2007 (Symposium, “Evaluating climate records to understand causes and effects of climate variability in coastal systems.”)

University of South Carolina School of Law, “Balancing private and public rights in the coastal zone in the era of climate change” Columbia, SC September 2007

American Academy for the Advancement of Science, Invited Speaker, San Francisco, February 2007.

Joint Workshop on NASA Biodiversity, Terrestrial Ecology, and Related Applied Sciences (Keynote address); Adelphi, MD, August 2006.

American Society of Limnology and Oceanography (Symposium, “Forecasting Biogeographic Responses to Climate Change in Coastal Ecosystems”), June 2006.

NASA Biodiversity and Ecological Forecasting meeting, Washington D.C., August 2005.

Benthic Ecology Meetings, Mobile, AL (Symposium: Three Seas East West Marine Biology 20th Anniversary) March 2004.

Western Society of Malacologists, Monterey, CA (Symposium: “Ecology of mollusks”). July 2002.

Society for Integrative and Comparative Biology, Anaheim, CA, (Co-organizer of Symposium: Physiological Ecology of Rocky Intertidal Organisms: from Molecules to Ecosystems) January 2002.

National Science Foundation, Biocomplexity P.I. Workshop. October 2001.

American Society of Limnology and Oceanography, Albuquerque, NM. (Co-organizer of Symposium: “From Molecules to Ecosystems: a Hierarchy of Mussel Biology”) February 2001.

Bodega Bay Marine Laboratory, Bodega, CA, June 2001.

Western Society of Naturalists annual meeting, (Symposium: “Biomechanics and ecology: is the marriage working?”) December 1997.

Regional/Local

Oregon Institute of Marine Biology, Coos Bay, OR. April 2017.

University of New England, Biddeford, ME. April, 2017.

New England Aquarium, Lowell Institute Public Lecture Series. April 2017.

Boston Sea Rovers. March 2017.

University of Massachusetts, Boston. School for the Environment. January, 2017.

State University of New York, Stony Brook, Department of Ecology and Evolution and School of Marine and Atmospheric Sciences, Oct. 2016.

Clark University, Department of Biology, Sept. 2016.

Bentley University School of Business, Innovation for a Sustainable Sea conference, April 2015

Salem State University Darwin Festival, April 2015

University of Massachusetts Dartmouth, November 2014

Woods Hole Oceanographic Institution, Department of Biology, Woods Hole, MA December 2013

Harvard University, Department of Organismic and Evolutionary Biology, Cambridge MA, Oct 2013

Tufts University, Department of Biology, Worcester, MA Oct 2013

College of the Holy Cross, Worcester, MA Biology Department April 2013

State University of New York, Stony Brook, Ecology and Evolution Department. April 2013

Explorers Club, New York, NY March 2012.

Northeastern University, Jan 2012.

Caring for Creation Conference, Lake Junaluska, NC, April 2011.

University of North Carolina Chapel Hill, Department of Biology, February 2011

Caring for Creation Conference, Lake Junaluska, NC, April 2010.
Duke Marine Laboratory, Beaufort, NC. October 2009.
University of North Carolina, Wilmington, Department of Biology and Marine Biology. October, 2008
Coker College, Hartsville, SC. Centennial Celebration lecture. September, 2008.
Environmental Educators Association of South Carolina, Keynote Address, June 2008.
Florida State University, Coastal and Marine Laboratory, Elise B. Newell Seminar Series, March 2008
Auburn University, Department of Biological Sciences, January 2008.
University of Central Florida, Florida Seagrant Elise B. Newell Seminar Series, January 2008.
Clemson University, Department of Biological Sciences, January 2008.
Department of Natural Resources, Charleston, SC. October, 2006.
University of Georgia, Athens. Institute of Ecology. Athens, GA. September, 2006
University of California Los Angeles, April 2006.
University of New England, Maine, April 2006.
California State University, Northridge, Department of Biology, November 2005
Texas A&M University, Department of Oceanography, October 2005.
Bowdoin College, Department of Biology, Maine, November 2004.
University of Rhode Island, Department of Biology, November 2003
University of Delaware, College of Marine Studies, Lewes, DE. October 2003
Brown University, Department of Ecology and Evolutionary Biology, October 2003
Ecological Society of America, Savannah, GA (Symposium: “Body size, biophysics and biological stoichiometry: from individual function to ecosystem structure”), August 2003
University of California, Berkeley, Department of Integrative Biology. Feb. 2003.
Western Society of Naturalists, Monterey, CA, Nov. 2002. (Symposium: “Marine Ecological Patterns at the Large Scale”).
College of Charleston, Department of Biology, Charleston, SC, Sept. 2002.
University of Washington, Friday Harbor Laboratories, May 2002.
South Carolina Marine Educators Association, Hunting Island, SC, March 2002. Keynote address.
University of North Carolina, Chapel Hill, Department of Marine Sciences. January 2002.
Oregon State University, Corvallis, Department of Zoology, May 2000.
University of South Carolina, Aiken, Department of Biology and Geology, March 2000.
National Center for Ecological Analysis and Synthesis, “Modeling sessile growth” working group. Santa Barbara, CA, Aug. 1999.
University of South Carolina, Columbia, Department of Biology, March 1998.
University of California, Santa Cruz, Department of Biology, Feb. 1998.
University of California, Davis, Division of Biological Sciences, Section of Evolution and Ecology. January 1998.
Stanford University, Hopkins Marine Station, Pacific Grove, CA. October 1997.
University of Washington, Seattle, School of Fisheries. June 1997.

GRANTS IN SUPPORT OF RESEARCH

External Grants:

NSF- OCE-BSF: The effects of fine-scale temperature and desiccation variability on the distribution of marine species. Helmuth (PI) with T. Gouhier, G. Rilov and S. Filin. 9/16-8/19. \$646,147. (OCE-1635989).

NSF: Using an energetics framework to forecast the interactive effects of abiotic and biotic stressors on intertidal mussels. Helmuth (PI) with G. Trussell and M. Zippay; 2/16-1/19. \$399,508 (IBN 1557868).

NOAA: Science center public forums: Community Engagement for environmental literacy, improved resilience, and decision making. 10/15-9/18. \$39,000; Subcontract to Museum of Science, Boston (NA15SEC0080005).

Google. Class Action: Visualizing local environmental change using new media; Jan 2012-Jan 2013; \$25,000. (With Nicole Heller).

NSF CDI-TYPE I: Biologically relevant sensor networks for climate change studies in intertidal ecosystems (co-PI with Wenyuan Xu) 8/11-8/14. \$447,666. Location: University of South Carolina. (GEO-1124657)

National Aeronautics and Space Administration, “Physiological impacts of climate change using remote sensing: An integrative approach to predicting patterns of species abundance and distribution and thresholds of ecosystem collapse”; 5/1/11-4/28/15; \$1,900,000; (co-PI with D.S. Wethey [PI], T.J. Hilbish, S. Woodin, and V. Lakshmi). (NNX11AP77G)

NSF: Environmental signal analysis: monitoring the impacts of climate change on rocky intertidal ecosystems across a cascade of scales. (co-PI with J. Tang); 9/1/09-8/31/14 \$737,620;

NSF: Planning visit: ecological forecasting of intertidal ecosystems in Chile 3/1/09-2/28/10. \$18,645.

National Aeronautics and Space Administration, “Viewing the world through nonhuman eyes: exploring the links between remote sensing, climate change and coastal ecosystems.” 4/07-3/10. \$44,775.

National Aeronautics and Space Administration, “Ecological forecasting and hindcasting of biodiversity responses to climate change: from MODIS to mussels.” Helmuth (PI) with D.S. Wethey, T.J. Hilbish and V. Lakshmi (USC Geology). 3/07-3/10. \$1,416,738. (NNX07AF20G)

NOAA Ecofore: Ecological forecasting: responses of ecosystem foundation species in the coastal zone to climate change (co-PI with D.S. Wethey [PI], T.J. Hilbish, S. Woodin, V. Lakshmi, and H. Power); 11/01/04-10/31/09, \$2,478,118.

National Aeronautics and Space Administration, “Climate change and intertidal biogeography: coupling remote sensing data to thermal physiology across a cascade of scales.” (Helmuth [PI] with D.S. Wethey, T.J. Hilbish and V. Lakshmi) 3/04-3/07; \$1,050,000. (NNG04GE43G).

National Science Foundation, “Climate change and patterns of body temperature in intertidal ecosystems” 09/03 - 08/06; \$234,000.

National Science Foundation, “Biophysical and behavioral agents of natural selection in a hybrid zone”, (co-PI with T.J. Hilbish [PI] and D.S. Wethey), 3/02 – 2/04, \$220,209.

National Geographic Society, “Latitudinal patterns in thermal stress: linking physiology, ecology and climate change (co-PI with Gretchen Hofmann), 2/02- 10/03. \$20,050. (\$11,000 to Helmuth)

National Science Foundation. “Physical Ecology of the Rocky Intertidal: predicting patterns in invertebrate body temperatures” 4/00- 3/03, \$287,000.

National Undersea Research Center, “Decoupling the effects of mass transfer, water motion and temperature on reef health.” (co-PI with DS Wethey [PI] and C Finelli) 1/02 – 12/03, \$49,953.

National Science Foundation, “Symposium: Physiological ecology of rocky intertidal organisms: from molecules to ecosystems.” 11/ 01 – 11/02. \$6000.

National Science Foundation. BIOCOPLEXITY--INCUBATION ACTIVITY: Linking ecology, physiology and climate change: Influence of environmental stress on community structure in the rocky intertidal. (co-PI with G. Hofmann [PI], B. Menge and A. Kinzig) 7/00–6/01. \$61,896.

Smithsonian Institution, Caribbean Coral Reef Ecosystems program. “Uncovering the roles of

environment and physiology in the alternating competitive dominance of two coral species' (Helmuth [PI] with K.P. Sebens, E. Carrington and J. Leichter) 1/01 – 12/02.
Smithsonian Institution. Quantifying the role of “physical factors” in the life history of the coral *Agaricia tenuifolia* (Helmuth [PI] with I. Macintyre and B. Timmerman). May 1998.
Smithsonian Institution. The interplay of host morphology and symbiont microhabitat: consequences of aggregation structure of the coral *Agaricia tenuifolia* (Helmuth [PI] with I. Macintyre and B. Timmerman). March 1997.
Smithsonian Institution. Consequences of aggregation structure, habitat complexity and colony morphology to mass flux in scleractinian corals (co-PI with I. Macintyre). March 1996.
Smithsonian Institution. Effects of water movement on the distribution and morphology of reef corals (co-PI with K.P. Sebens [PI]). March 1994, March 1995.

Internal Grants:

Northeastern University Office of the Provost, "Autonomous sensors and smart analytics for wetlands in urban areas" (with Mark Patterson (PI)). 7/1/14-6/30/15; \$50,000
USC Office of the Provost, Institute for STEM Enrichment, “Sensor development for the study of global climate change in intertidal ecosystems: an international workshop at USC. Helmuth (PI) with Jijun Tang and Wenyuan Xu. 3/1/11-2/28/12; \$21,290.
South Carolina BRIN/EpScOR program, “Characterizing the thermal ecology of fiddler crabs” (Helmuth [PI] with R. Brodie and M. Crowe) 7/02-7/03. \$25,000.
USC FEI program. Cluster Hire in Ecological Forecasting (with J. Tang, D. Wetthey, M. Fletcher and G. Carbone). \$233,000.

TEACHING AND ADVISING

Courses Taught:

Urban Coastal Sustainability, Spring 2015 (9 students), Fall 2016 (23 students)
Introduction to Environmental Science; Spring 2014 (114 students), Spring 2016 (105 students), Spring 2017 (73 students)
Honors Biology 102: spring semesters 2001, 2002, 2003, 2004 (approximately 30 students/ semester)
Ecology and Evolution Laboratory (Fall 2004, 400 students)
Introduction to Physiological Ecology; fall semesters 2001, 2003, 2004, 2005, 2006 (approximately 20 students/semester)
Biology 102 (Introductory Biology): spring semesters of 2005,2006,2007,2008, 2009, 2010, 2012 (approximately 275 students per semester)
Conservation Biology, fall semesters 2003, 2004, 2007 (approximately 10 students/semester)
Comparative Physiology; fall semesters 2009, 2010 (100 students per semester)

Graduate Students and Post Docs Advised:

Degrees awarded:

Karl Castillo (Ph.D. awarded 2008, USC Marine Science Program) Thesis title: “Effects of Elevated Seawater Temperature on the Scleractinian coral *Montastrea annularis* from the Inner and Outer Reefs of Southern Belize”
Maxine Henry (M.S. Awarded 2005, USC Marine Science Program). Thesis title: “Modeling environmental effects on body temperature of an intertidal saltmarsh snail (*Ilyanassa obsoleta* Say)”

Jennifer Jost (Ph.D. awarded 2007, USC Biological Sciences). Thesis title: “The morphological determinants of body temperature in the ribbed mussel, *Geukensia demissa* and their effects on mortality and growth rate.”

Kimberly Schneider (Ph.D. awarded Fall 2006; USC Biological Sciences). Thesis title: “The role of abiotic factors in intertidal selection: A comparison between an invader and its sibling species.”

Lauren Szathmary (M.S. awarded 2006, USC Biological Sciences). Thesis title: “Predicting direct and indirect effects of climate change on a predator-prey pair in the rocky intertidal ecosystem”

Lauren Yamane (M.S. awarded 2008, USC Marine Science Program). Thesis title: “Contrasting responses of an intertidal predator to aerial and aquatic body temperatures”

K. Allison Smith (Ph.D. awarded 2010, USC Biological Sciences). Thesis title: “Measuring and forecasting environmental conditions from the perspective of rocky intertidal organisms”

Shilpi Chhotray (MS awarded 2010, USC MEERM Program). Thesis title: “An assessment of the perceptions, level of involvement, and needs of user-groups for Marine Protected Areas in the Carolinas”

Josephine Iacarella (MS awarded 2011, USC Marine Science Program). Thesis title: “Behavioral and physiological responses of the salt marsh snail, *Littoraria irrorata*, to thermal and desiccation stresses”

Nicole Kish (MS awarded 2013, USC Marine Science Program) Thesis title: “Modeling approaches, physiological responses, and climate change: how good is “good enough?”

Cristian Monaco (Ph.D. awarded 2014, USC Biological Sciences)

Shadow Gullede (M.S. awarded 2014, USC Master of Earth and Environmental Resources)

Nicholas Colvard (Ph.D awarded 2016, Northeastern University, Department of Marine and Environmental Sciences)

Kelsey Tuminelli (M.S. awarded 2016, Northeastern University, Three Seas Marine Biology Program)

Charlee Corra (M.S. awarded 2016, Northeastern University; Three Seas Marine Biology Program)

Emily Duwan (M.S. Awarded 2017. Northeastern University; Three Seas Marine Biology Program)

Current students:

Allison Matzelle (Ph.D. student, Northeastern University; 2013-present)

Jessica Torossian (Ph.D. student, Northeastern University; 2013-present)

Ashley Cryan (PhD student, Northeastern University; 2016-present)

Lauren Giglio (Northeastern University; Three Seas Marine Biology Program, 2017-present)

Kirinne Slaughter (Northeastern University; Three Seas Marine Biology Program, 2017-present)

Postdoctoral students:

Sarah Gilman (Post Doctoral Research Associate, 2003-2005)

Sylvain Pincebourde (Post Doctoral Research Associate, 2006-2007)

Mackenzie Zippay (Post Doctoral Research Associate, 2011-2014)

Undergraduate students:

Lindsay Peter (2015) Thermal physiology of mussels

Anthony Lamattina (2015) Thermal ecology of Gulf of Maine Invertebrates

Megan Reilly (2015-present) Stories of climate change by residents of coastal communities

Tara Fitzhenry (2000-2001) Senior Thesis: Thermal biology of intertidal mussels (*resulted in first-authored publication by student in journal Marine Biology)

Nichole Moore (2000-2001) Ecology and genetics of zooxanthellae in corals
Christie Stephans (2001) Feeding biology of soft corals
Justin Tisdale (2002) Population genetics of marine mussels
Denise Strickland (2002-2003) Senior Honors thesis: Development of lesson plans examining marine ecology of intertidal ecosystems
Lisa Wickliffe (2002-2003) Physiological ecology of intertidal invertebrates
Lauren Szathmary (2002- 2004) SC Honors College Thesis: Development of a mathematical model of heat exchange for intertidal seastars
Katrina Nylund 2003 Species range boundaries of intertidal mussels
Nouran Ragaban 2004 Population genetics and biogeography of *Mytilus*
Crystal Welch (In service Teacher) Development of lesson plans examining population ecology and genetics
Jake Adams 2004-2005 Effects of water flow on coral physiology
Anna Marie Laura (2005) SC Honors College Thesis: Development of lesson plans examining effects of climate change on polar bears
Lindsay Watson (2005) SC Honors College Thesis: Development of lesson plans examining mechanisms of heat exchange in mammals
Lauren Van Thiel (2006-2007) Microclimatic effects on species invasions in rocky intertidal ecosystems (resulted in publication in *Journal of Thermal Biology*)
Alyson Tockstein (2008-2010). Intertidal thermal biology
Nicholas Burnett (2009-2012). Ecophysiology of intertidal invertebrates (resulted in book chapter)
Maggie Brillhart (2009) Development of lesson plans for middle school teachers
Rachel Harris (2010) Biomimetic sensors for intertidal seastars
Corey Scott (2011) Marsh crab thermal biology
Shadow Fockler (2011-2012) Effects of wave energy farms on intertidal organisms
Rachel Price (2012): Educational outreach using Gigapan technology
Catherine Bowler (2012): Educational outreach using Gigapan technology

PROFESSIONAL DEVELOPMENT AND SYNERGISTIC ACTIVITIES

Service to the Discipline/Profession

Member CERSAP review team for SAP 4.3 (interagency panel on climate change) 2007-08.
Contributing Editor, *Marine Ecology Progress Series* 2007-2015
Subject editor, *Coral Reefs*, 2013-2015
Section lead, National Climate Assessment Technical Input Document (Oceans Chapter); 2012-2013
Member, GEO-BON working group 5, 2012-present
Member, Marine Biodiversity Observation Network (MBON), 2016-present
National Sea Grant Advisory Board, 2015-present

Service to the Community/Public

Association of Climate Change Officers, Co-chair, Adaptation Working Group, 2011-2012
Board member, South Carolina Marine Educators Association, 2001-2003
Science Committee, *The Explorers Club*

Professional Development

Google Science Communications Fellow (Climate Change), 2011
Aldo Leopold Leadership Fellow, 2005
