

Richard H. Melloni, Jr., Ph.D. Curriculum Vitae

Work Address and Phone Numbers

Department of Psychology
Northeastern University
125 Nightingale Hall
360 Huntington Avenue
Boston, MA 02115

Office: (617) 373-3043
Lab: (617) 373-8641
Fax: (617) 373-8714
Email: r.melloni@northeastern.edu

Education

1993 Ph.D. in Biomedical Sciences, University of Massachusetts Medical School, Worcester, MA
1989 M.A. in Psychology and Neuroscience, University of Hartford, West Hartford, CT
1985 B.S. in Biochemistry, University of New Hampshire, Durham, NH

Professional Experience

2012-present Professor, Department of Psychology, Northeastern University, Boston, MA
2004-2012 Associate Professor, Department of Psychology, Northeastern University, Boston, MA
1999-2004 Assistant Professor, Department of Psychology, Northeastern University, Boston, MA
1995-1999 Assistant Professor, Department of Psychiatry and Program in Neuroscience, University of Massachusetts Medical School, Worcester, MA
1994-1995 Postdoctoral Fellow, Department of Psychiatry, University of Massachusetts Medical Center, Worcester, MA
1993-1994 Postdoctoral Scientist, Department of Neurology, University of Massachusetts Medical Center, Worcester, MA
1987-1993 Ph.D. Graduate Studies, Departments of Cellular and Molecular Biology and Neurology, University of Massachusetts Medical School, Worcester, MA
1985-1987 M.A. Graduate Studies, Department of Psychology, University of Hartford, West Hartford, CT
1985-1987 Research Associate, Pathology Department, University of Connecticut Health Science Center, Avon, CT

Appointments

2010-present Director, Program in Behavioral Neuroscience, Northeastern University
2005-present Chairman, Institutional Animal Care and Use Committee, Northeastern University
2003-present Member, Institutional Animal Care and Use Committee, Northeastern University
2006-2008 Director, Program in Behavioral Neuroscience, Northeastern University
2005-2006 Chairman, Neuroscience Ph.D. Program Committee, Northeastern University
2003-2006 Assistant Director, Program in Behavioral Neuroscience, Northeastern University

Honors and Awards

- 2013 Aggression and anxiety during exposure predict behavioral responding during withdrawal from adolescent anabolic-androgenic steroid exposure in Syrian hamsters. *Society for Neuroscience Press Book*, pp. 632-633.
- 2013 Nominated for the University Excellence in Teaching Award, Northeastern University, Boston, MA
- 2012 Community Service Award, Dr. Martin Luther King Community Celebration Committee, South Coast Boys and Girls Club of America, New Bedford, MA
- 2012 Nominated for the University Excellence in Teaching Award, Northeastern University, Boston, MA
- 2004 Community Ordinary Hero Award, Community Service Learning Program, Wareham School Department, Wareham, MA
- 2004 Southcoast's Wareham Man of the Year, The Standard-Times and SouthCoastToday.com, New Bedford, MA
- 2003 Nominated for the University Excellence in Teaching Award, Northeastern University, Boston, MA
- 2002 Excellence in Teaching Award, Psychology Department, Northeastern University, Boston, MA
- 1997 Chronic anabolic steroid exposure during adolescence stimulates vasopressin-mediated aggression in hamsters. *Society for Neuroscience Press Book*, pp. 187-190.
- 1997 Chronic cocaine exposure during adolescence elevates offensive aggression in adult golden hamsters. *Society for Neuroscience Press Book*, pp. 321-324
- 1996 Adolescent anabolic steroids, vasopressin, and aggression in golden hamsters. *Society for Neuroscience Press Book*, pp. 451-453.
-

Publications

80. Morrison, T.R., Ricci, L.A., and Melloni, R.H., Jr. (2016) Serotonin type-3 receptors modulate aggression during anabolic steroid exposure and anxiety during anabolic steroid withdrawal in adolescent hamsters (*Mesocricetus auratus*). *Behavioral Neuroscience*, Under Review.
79. Ricci, L.A., Morrison, T.R., and Melloni, R.H., Jr. (2016) Divalproex exerts potent anti-aggressive effects on adolescent anabolic/androgenic steroid-induced aggression. *Behavioral Pharmacology*, Under Review.
78. Morrison, T.R., Ricci, L.A., and Melloni, R.H., Jr. (2016) Vasopressin differentially modulates aggression and anxiety in hamsters administered anabolic steroids. *Hormones and Behavior*, Epub 2-May-2016.
77. Morrison, T.R., Ricci, L.A., and Melloni, R.H., Jr. (2016) Anabolic steroids alter the physiological activity of aggression circuits in the lateral anterior hypothalamus. *Neuroscience*, 315:1-17.
76. Morrison, T.R., Ricci, L.A., and Melloni, R.H., Jr. (2015) Aggression and anxiety in adolescent hamsters administered anabolic/androgenic steroids: A role for serotonin type-3 receptors. *Pharmacology, Biochemistry and Behavior*, 134; 85-91.
75. Ricci, L.A., Morrison, T.R., and Melloni, R.H., Jr. (2015) Anabolic/androgenic steroid exposure during adolescence or adulthood differentially modulate aggression during exposure and anxiety during withdrawal in Syrian hamsters. *Hormones and Behavior*, 69, 132-138.
74. Morrison, T.R. and Melloni, R.H., Jr. (2015) Dopamine D2 receptors act upstream of vasopressin in the latero-anterior hypothalamus to modulate anabolic/androgenic steroid-induced offensive aggression. *Behavioral Neuroscience*, 129; 197-204.

73. Morrison, T.R., Ricci, L.A., and Melloni, R.H., Jr. (2014) γ -Aminobutyric neural signaling in the latero-anterior hypothalamus modulates aggressive behavior in adolescent anabolic/androgenic steroid-treated hamsters. *Behavioral Pharmacology*, 25, 673-683.
72. Ricci, L.A. and Melloni, R.H., Jr. (2013) Preclinical investigations into the relationship between adolescent SSRI exposure and aggressive behavior: Response to commentary by Rubin and Walkup (2012). *Behavioral Neuroscience*, 127, 130-132.
71. Ricci, L.A., Summers, C.H., Larson, E.T., O'Malley, D. and Melloni, R.H., Jr. (2013) Development of aggressive phenotypes: Interactions of age, experience, and social status. *Animal Behavior*, 86, 245-242.
70. Schwartzter, J.J., Ricci, L.A., and Melloni, R.H., Jr. (2013) Prior fighting experience increases aggression in Syrian hamsters: Implications for a role of dopamine in the winner effect. *Aggressive Behavior*, 39, 290-300.
69. Ricci, L.A., Morrison, T.R., and Melloni, R.H., Jr. (2013) Adolescent anabolic-androgenic steroids: Aggression and anxiety during exposure predict behavioral responding during withdrawal in Syrian hamsters. *Hormones and Behavior*, 64, 770-780.
68. Ricci, L.A. and Melloni, R.H., Jr. (2012) Repeated fluoxetine administration during adolescence stimulates aggressive behavior and alters serotonin and vasopressin neural development in hamsters. *Behavioral Neuroscience*, 126, 640-653.
67. Ricci, L.A., Morrison, T.R., and Melloni, R.H., Jr. (2012) Serotonin modulates anxiety-like behavior during withdrawal from adolescent anabolic steroid exposure in hamsters (*Mesocricetus auratus*). *Hormones and Behavior*, 62, 569-578.
66. Carrillo, M., Ricci, L.A., and Melloni, R.H., Jr. (2011) Developmental and withdrawal effects of adolescent anabolic steroid exposure on the glutamergic neural system in hamsters (*Mesocricetus auratus*). *Behavioral Neuroscience*, 125, 452-64.
65. Carrillo, M., Ricci, L.A., and Melloni, R.H., Jr. (2011) Glutamate-vasopressin interactions and the neurobiology of adolescent anabolic steroid-induced offensive aggression. *Neuroscience*, 185, 85-96.
64. Carrillo, M., Ricci, L.A., and Melloni, R.H., Jr. (2011) Glutamate and the aggression neural circuit in adolescent anabolic steroid-treated Syrian hamsters (*Mesocricetus auratus*). *Behavioral Neuroscience*, 125, 753-763.
63. Melloni, R.H., Jr. and Ricci, L.A. (2010) Adolescent exposure to anabolic/androgenic steroids and the neurobiology of offensive aggression: A hypothalamic neural model based on findings in pubertal Syrian hamsters. *Hormones and Behavior*, 58, 177-91.
62. Carrillo, M., Ricci, L.A., Schwartzter, J.J., and Melloni, R.H., Jr. (2010) Immunohistochemical characterization of 5HT_{3A} receptors in the Syrian hamster brain. *Brain Research*, 1329, 67-81.
61. Schwartzter, J.J. and Melloni, R.H., Jr. (2010) Anterior hypothalamic dopamine D2 receptors modulate adolescent AAS-induced offensive aggression. *Behavioral Pharmacology*, 21, 314-22.
60. Schwartzter, J.J. and Melloni, R.H., Jr. (2010) Dopamine activity in the lateral anterior hypothalamus modulates AAS-induced aggression through D2 but not D5 receptors. *Behavioral Neuroscience*, 124, 645-55.
59. Ricci, L.A., Schwartzter, J.J., and Melloni, R.H., Jr. (2009) Alterations in the anterior hypothalamic dopamine system adolescent, anabolic/androgenic steroid treated hamsters. *Hormones and Behavior*, 55, 348-55.
58. Schwartzter, J.D., Morrison, R., Ricci, L.A., and Melloni, R.H., Jr. (2009) Paliperidone suppresses the development of the aggressive phenotype in a developmentally sensitive animal model of escalated aggression. *Psychopharmacology*, 203, 653-63.
57. Schwartzter, J.J., Ricci, L.A., and Melloni, R.H., Jr. (2009) Adolescent anabolic/androgenic steroid exposure alters lateral anterior hypothalamic serotonin (2A) receptors in aggressive male hamsters. *Behavioral Brain Research*, 199, 257-262.

56. Carrillo, M, Ricci, L.A.,and Melloni, R.H., Jr. (2009) Adolescent anabolic steroids reorganize the glutamatergic neural circuitry in the hypothalamus. *Brain Research*, 1249, 118-127.
55. Carrillo, M., Ricci, L.A., Coppersmith, G., and Melloni, R.H., Jr. (2009) The effect of increased serotonin neurotransmission on aggression: A critical meta-analytical review of preclinical studies. *Psychopharmacology*, 205, 349-68.
54. Schwartzter, J.J., Ricci, L.A., and Melloni, R.H., Jr. (2009) Interactions between the dopaminergic and GABAergic neural systems in the lateral anterior hypothalamus of aggressive, AAS-treated hamsters. *Behavioral Brain Research*, 203, 15-22.
53. Schwartzter, J.D., Connor, D.F, Morrison, R., Ricci, L.A., and Melloni, R.H., Jr. (2008) Repeated risperidone administration during puberty prevents the generation of the aggressive phenotype in a developmentally immature animal model of escalated aggression. *Physiology and Behavior*, 95, 176-181.
52. Ricci, L.A., Grimes, J.M., and Melloni, R.H., Jr. (2007) Lasting changes in neuronal activation patters in select forebrain regions of aggressive, adolescent anabolic/androgenic steroid-treated hamsters. *Behavioral Brain Research*, 176, 344-352.
51. Ricci, L.A., Connor, D.F., Morrison, R., and Melloni, R.H., Jr. (2007) Risperidone exerts potent anti-aggressive effects in a a developmentally immature animal model of escalated aggression. *Biological Psychiatry*, 62, 218-225.
50. Grimes, J.M., Ricci, L.A., and Melloni, R.H., Jr. (2007) Alterations in anterior hypothalamic vasopressin, but not serotonin, correlate with the temporal onset of aggressive behavior during repeated adolescent anabolic/androgenic steroid treatment in hamsters (*Mesocricetus auratus*). *Behavioral Neuroscience*, 121, 941-948.
49. Fischer, S.G., Ricci, L.A., and Melloni, R.H., Jr. (2007) Repeated anabolic/androgenic steroid exposure during adolescence alters phosphate-activated glutaminase and glutamate receptor 1 (GluR1) subunit immunoreactivity in hamster brain: Correlation with offensive aggression. *Behavioral Brain Research*, 180, 77-85.
48. Larson, E.T., O'Malley, D.M. and Melloni, R.H., Jr. (2006) Aggression and vasotocin are associated with dominant-subordinate relationships in zebrafish. *Behavioral Brain Research*, 167, 94-102.
47. Grimes, J.M., Ricci, L.A., and Melloni, R.H., Jr. (2006) Plasticity in anterior hypothalamic vasopressin correlates with aggression during anabolic/androgenic steroid withdrawal in hamsters. *Behavioral Neuroscience*, 120, 115-24.
46. Ricci, L.A., Rasakham, S., Grimes, J.M., and Melloni, R. H., Jr. (2006). Serotonin type-1A receptor activity and expression modulate adolescent anabolic/androgenic steroid-induced aggression in hamsters. *Pharmacology, Biochemistry and Behavior*, 85, 1-11.
45. Grimes, J.M. and Melloni, R.H., Jr. (2006) Prolonged alterations in the serotonin neural system following the cessation of anabolic/androgenic steroid exposure in hamsters (*Mesocricetus auratus*). *Behavioral Neuroscience*, 120, 1242-51.
44. Ricci, L.A., Knyshevski, I., and Melloni, R.H., Jr. (2005) Serotonin type-3 receptors stimulate offensive aggression in Syrian hamsters. *Behavioral Brain Research*, 156, 19-29.

Scientific Proceedings and Conferences

15. Vasopressin, A Neurobiologic Trigger System for Aggressive Behavior? (2010) Annual Meeting of the Midwestern Psychological Association, Chicago, Illinois
14. A Neural Model of Offensive Aggression: Findings from Research using Pubertal Syrian Hamsters. (2010) 20th Meeting of the International Society for Research on Aggression, Storrs, Connecticut.
13. Adolescent Anabolic Steroids and the Neurobiology of Aggression. (2009) Annual Meeting of the Midwestern Psychological Association, Chicago, Illinois.
12. Vasopressin: A Molecular Trigger for Aggression? (2008) *DARPA Workshop, NeuBAR: Neuroepidemiological Basis of Aggression and Reconciliation*, Stanford, California.

11. Adolescent Anabolic Steroids and the Neurobiology of Aggression. (2007) DBNBR Science Friday Seminar Series, National Institute on Drug Abuse, National Institutes of Health, Bethesda, Maryland.
 10. Effect of Risperidone in an Animal Model of Maladaptive Aggression. (2006) *53rd Annual Meeting of the American Academy of Child and Adolescent Psychiatry*, San Diego, California.
 9. Adolescent Anabolic Steroids: Neuro-Developmental Consequences for Aggression. (2006) *Workshop on Steroid Hormones and Brain Function. Neurobiology of Anabolic-Androgenic Steroid Abuse*. Breckenridge, Colorado.
 8. Adolescent Drug Abuse, Vasopressin & Aggression: Divergent Drugs Yet Convergent Neural Paths to the Development of the Aggressive Phenotype. (2006) *16th Meeting of the International Society for Research on Aggression*, Minneapolis, Minnesota.
 7. Serotonin Neural Signaling and Development Modulate the Generation of the Aggressive Phenotype in a Preclinical Model of Adolescent Anabolic Steroid Abuse. (2006) *16th Meeting of the International Society for Research on Aggression*, Minneapolis, Minnesota.
 6. Adolescent anabolic/androgenic steroids: Neuro-behavioral consequences for aggression. (2005) *9th Meeting of the Society for Behavioral Neuroendocrinology*, University of Texas, Austin, Texas.
 5. Conference Chairman: Neurobehavioral consequences of anabolic-androgenic steroid abuse. (2005) *9th Meeting of the Society for Behavioral Neuroendocrinology*, University of Texas, Austin, Texas.
 4. Adolescent anabolic steroids: Neuro-developmental consequences for aggression. (2004) Cutting Edge in Science Seminar Series, National Institute on Drug Abuse, Bethesda, Maryland.
 3. Prenatal cocaine exposure, vasopressin, and aggression in hamsters. (2002) *14th Meeting of the International Society for Research on Aggression*, McGill University, Montreal (Quebec).
 2. Adolescent anabolic steroids activate the anterior hypothalamic vasopressin neural circuit controlling aggression in hamsters. (1998) *12th Meeting of the International Society for Research on Aggression*, Ramapo College, Ramapo, New Jersey.
 1. Preclinical models of adolescent anabolic steroid abuse and aggression. (1996) *2nd Annual International Colloquium on Aggression, Mental Illness and Psychiatric Intervention*, Philippe Pinel Research Center, Montreal.

University, Medical and Regional Education

23. Anabolic steroids: Truths and dangers. (2011) Young Athletes Night, Carver High School, Carver, Massachusetts
22. Adolescent anabolic steroids and the neurobiology of aggression. (2008) Behavioral Neuroscience Seminar Series, University of Massachusetts Amherst, Amherst, Massachusetts.
21. The truth about anabolic steroids. (2008) Sports Medicine Community Educational Outreach Series, The Jordan Hospital Systems, Plymouth, Massachusetts.
20. Adolescent drug abuse: Neuro-behavioral consequences for aggression. (2008) Psychology Department Seminar Series, University of Texas, Austin, Texas.
19. What animal models can teach us about the clinical management of aggression. (2006) Psychiatry Grand Rounds, Massachusetts Mental Health Hospital, Jamaica Plain, Massachusetts
18. Anabolic-androgenic steroids: Facts...not fiction. (2006) Northeastern University Football Program Guest Lecturer, Northeastern University, Boston, Massachusetts.
17. Can animal models can teach us about the clinical management of aggression. (2006) Medical Grand Rounds, Southcoast Hospital Group, Tobey Hospital, Wareham, Massachusetts.

16. Animal models and the clinical management of aggression. (2006) Psychiatry Resident Training Series, Brigham and Women's Hospital, Boston, Massachusetts
15. Adolescent Drug Abuse: Neuro-behavioral consequences for aggression. (2005) Center for Behavioral Neuroscience, Georgia State University, Atlanta, Georgia.
14. Anabolic/androgenic steroids: Neuro-developmental consequences for aggression. (2005) Biology Seminar Series, Northeastern University, Boston, Massachusetts.
13. The neurobiology of aggression: What Psychiatry can learn from hamsters..&..fish. (2005) Psychiatry Resident Training Series, Brigham and Women's Hospital, Boston, Massachusetts
12. Adolescent Drug Abuse: Neuro-developmental consequences for aggression. (2004) Neuroscience Seminar Series, University of Massachusetts Medical Center, Worcester, Massachusetts.
11. Steroids, Stimulants and Aggression: Divergent drugs yet convergent paths to the development of the aggressive phenotype. (2004) University of South Dakota, Vermillion, South Dakota.
10. How hamsters might pave the path to a treatment strategy for impulsive aggression. (2004) Medical Grand Rounds, Southcoast Hospital Group, Tobey Hospital, Wareham, Massachusetts.
9. Drug abuse and the neurobiology of aggression: What psychiatry can learn from hamsters. (2004) Psychiatry Resident Rounds, Brigham and Women's Hospital, Boston, Massachusetts
8. Adolescent drug exposure and the neurobiology of aggression: A tale of two transmitters. (2003) Neuroscience Seminar Series, McLean Hospital, Belmont, Massachusetts.
7. Drug abuse and aggression: Convergent paths to the aggressive phenotype. (2003) Psychiatry Grand Rounds, University of Massachusetts Medical Center, Worcester, Massachusetts.
6. Adolescent drug abuse and the neurobiology of aggression: A tale of two transmitters. (2002) Department of Psychology Seminar Series, University of Texas, Austin, Texas.
5. The biology of aggression. What animal models can tell us. (2001) Barnett Institute Research Retreat, The Barnett Institute, Northeastern University, Boston, Massachusetts.
4. Adolescent drug abuse and the neurobiology of aggression: A tale of two transmitters. (2001) Neuroscience Seminar Series, Northeastern University, Boston, Massachusetts.
3. Adolescent anabolic steroids and the neurobiology of aggression. (2001) Neuroscience Seminar Series, Northeastern University, Boston, Massachusetts
2. Animal models and the neurobiology of aggression. (1998) Psychiatry Grand Rounds, University of Massachusetts Medical Center, Worcester, Massachusetts.
1. The Devereux aggression project: Characterization and neurobiology of a clinical sample. (1997) The Devereux Foundation, Rutland, Massachusetts.

Research Funding

External

- | | |
|-----------|---|
| 2011-2016 | National Institutes of Health - Principal Investigator
RO1 DA10547 12-16
Adolescent Anabolic Steroids, Vasopressin and Aggression
Total Direct Costs: \$975,000. |
| 2009-2010 | National Science Foundation – Principal Investigator
IOS-0909854 – Pre-Doctoral support for M. Carrillo
Vasopressin-Glutamate Interactions in Anabolic Steroid-Treated Hamsters.
Total Direct Costs: \$14,962. |

2003-2010 National Institutes of Health - Principal Investigator
RO1 DA10547 07-12 (no cost extension until 2010)
Adolescent Anabolic Steroids, Vasopressin and Aggression
Total Direct Costs: \$875,000.

2006-2008 Janssen Pharmaceuticals – Principal Investigator
Pali-Peridone and the Behavioral Pharmacology of Aggression
Total Direct Costs: \$119,900.

2004-2008 National Institutes of Health – Principal Investigator
Undergraduate Research with NIDA – Summer Supplements
Anabolic Steroids and the Neurobiology of Aggression
Total Direct Costs: \$49,875.

2005-2007 Janssen Pharmaceuticals – Principal Investigator
Risperidone and the Behavioral Pharmacology of Impulsive Aggression
Total Direct Costs: \$107,649.

2003-2006 National Institutes of Health – Principal Investigator Sponsor
F31 DA018033 01-03 - Pre-Doctoral Fellowship to J.M. Grimes
Anabolic Steroids, GABA and Aggression
Total Direct Costs: \$70,566.

2004-2005 National Institutes of Health – Principal Investigator Sponsor
F31 DA015927 01-02 – Pre-Doctoral Fellowship to L.A. Potter
Adolescent Cocaine: Vasopressin/Serotonin on Aggression
Total Direct Costs: \$49,264.

2002-2005 National Institutes of Health – Principal Investigator
Undergraduate Research with NIDA – Summer Supplements
Adolescent Cocaine and the Neurobiology of Aggression
Total Direct Costs: \$39,850.

2002-2003 The Devereux Foundation – Co-Investigator with Dr. Daniel Connor
Early Developmental Stress and Aggression in Psychiatrically-Referred Youth
Total Direct Costs: \$20,000.

2001-2002 National Institutes of Health – Principal Investigator
Undergraduate Research with NIDA – Summer Supplement
Adolescent Drug Abuse and the Neurobiology of Aggression
Total Direct Costs: \$9,981.

1996-2002 National Institutes of Health - Principal Investigator
R29 DA10547 01-06
Adolescent Anabolic Steroids, Vasopressin and Aggression
Total Direct Costs: \$350,000.

1995-1996 The Harry Frank Guggenheim Foundation - Principal Investigator
Neuronal Plasticity and the Control of Aggressive Behavior
Total Direct Costs: \$66,470.

Internal

2004-2005 Northeastern University – Principal Investigator
Research and Scholarship Development Fund Award
Atypical Antipsychotics: Aggression Panacea or General Behavioral Suppressant
Award Amount: \$12,000

- 2002-2003 Northeastern University – Principal Investigator
Faculty Undergraduate Research Institute Award
Adolescent Cocaine and the Neurobiology of Aggression
Award Amount: \$3000.
- 2001-2002 Northeastern University – Principal Investigator
Research and Scholarship Development Fund Award
Aggression, Substance Abuse, and Biological Reactivity in Referred Youth
Award Amount: \$10,000.
- 2001-2002 Northeastern University – Principal Investigator
Undergraduate Research Fund Award
Adolescent Cocaine and the Control of Flank Marking in Female Hamsters
Award Amount: \$1000.
- 2000-2001 Northeastern University – Co-Investigator with Dr. Denise Jackson
Research and Scholarship Development Fund Award
Prenatal Cocaine Exposure on Serotonergic Regulation of AVP Release
Award Amount: \$15,000.

Departmental Service - Northeastern University

2013-present Graduate Committee
 2012-2014 M.A. Thesis Committees, Colin Rey
 2010-2013 Ph.D. Thesis Committee, Martha Caffery
 2011-2012 Search Committee Chairman, Behavioral Neuroscience Faculty Hire
 2010-2011 M.A. Thesis Committee, Ada Felix-Ortiz
 2010-2011 Search Committee Chairman, Behavioral Neuroscience Faculty Hire
 2007-2010 M.A. and Ph.D. Thesis Committee, Amanda Carey
 2006-2008 M.A. and Ph.D. Thesis Committee, Kampeuseth Rasakham
 2006-2007 Search Committee Chairman, Behavioral Neuroscience Faculty Hire
 2003-2005 M.A. and Ph.D. Thesis Committees, Heather Brenhouse
 2003-2004 Merit Review Committee
 2003 Behavioral Neuroscience Senior Honors Committee, Siobhan Walsh, Danielle Zito
 2002-2005 M.A. and Ph.D. Thesis Committees, Farzad Mortazavi
 2001-2005 M.A. and Ph.D. Thesis Committees, George Tryksak
 2001-2004 M.A. and Ph.D. Thesis Committees, James Akula, Nora Murphy
 2001-2003 Senior Honors Committee, Andrew Voluse
 2001-2002 Behavioral Neuroscience Senior Honors Committee, Lisa Keeler, Eric Oh
 2000-2002 M.A. and Ph.D. Thesis Committees, Aurora Mendelson
 2000-2001 M.A. and Ph.D. Thesis Committees, Steven Glatt
 1999-2001 M.A. and Ph.D. Thesis Committees, Mark Todtenkopf
 1999 Behavioral Neuroscience Senior Honors Committee, Jasmine Hasque

University Service - Northeastern University

2010-present Director, Behavioral Neuroscience Program
 2004-present Chairman, Institutional Animal Care and Use Committee
 2001-present Institutional Animal Care and Use Committee
 2011-2012 College of Science Undergraduate Curriculum Committee
 2006-2008 Director, Behavioral Neuroscience Program
 1999-2007 Graduate Neuroscience Ph.D. Program Steering Committee
 2005-2006 Ph.D. Thesis Committee, William Dickerson, Pharmaceutical Sciences
 2005-2006 Chairman, Graduate Neuroscience Ph.D. Program Steering Committee
 2003-2006 Assistant Director, Behavioral Neuroscience Program
 1999-2003 Radiation Safety Committee

University of Massachusetts Medical School

1996-1998 Graduate Council, Graduate School of Biomedical Sciences
 1996-1997 Grant Review Committee, Joseph P. Healy Awards

Community/ Public Service

1997-present Founder and Chairman, Dick Melloni Youth Foundation (DMYF),
 Wareham, Massachusetts, <http://www.dickmelloniyouthfoundation.org>
 1997-present Member, The Wareham Community Associates, Wareham, MA
 2008-2010 Member, Board of Managers, Gleason Family YMCA and Southcoast YMCA Systems,
 Wareham, MA

2007-2008	Chairman, “Make-it-Happen” Scholarship and Hardship Campaign, Gleason Family YMCA and Southcoast YMCA Systems, Wareham, MA
2002–2006	Vice President and President, The Wareham Community Associates, Wareham, MA
2002-2003	Major Gifts Committee and Charter Member, Wareham YMCA Development Project, Wareham, Massachusetts.

Teaching and Advising

Graduate Teaching

Northeastern University – Psychology Department

Neuropsychology Proseminar

Research Methods in Psychology (PSY 3411), Team taught – 2 lectures/yr

Clinical Neuroscience (Biology of Behavior) Proseminar

Ethics and Professional Issues, Team taught, - 1 lecture/year

Undergraduate Teaching

Northeastern University – Psychology Department

Psychobiology

Psychobiology Honors Thesis

Psychobiology Honors Adjunct

Psychobiology Directed/Independent Study

Psychopharmacology

Psychobiology Seminar

Biology Junior/Senior Honors

Psychopharmacology Honors Adjunct

Educational Outreach

Northeastern University – Psychology Department

Laboratory Host, NIDA Undergraduate Summer Research Program

University of Massachusetts Medical School

Laboratory Host, Howard Hughes Summer Fellowship, Office of Science Education

Laboratory Host, High School Health Careers Program, Office of Science Education

Lecturer, Frontiers in Science Program, Office of Science Education

Science Mentor, Office of Science Education and Worcester Foundation for Experimental Biology

Research Placement Coordinator, AHEC Frontiers in Science Minority Teacher Summer Fellowship Program

Graduate Students Advised

2011-present	Thomas Morrison, Doctoral Dissertation in Psychology <i>Dopamine, vasopressin and anabolic steroid-induced aggression.</i>
2007-2011	Jared Schwartzer, Doctoral Dissertation in Psychology <i>Dopamine/ Vasopressin modulate anabolic steroid-induced aggression.</i>
2006-2010	Maria Carrillo, Doctoral Dissertation in Psychology <i>Glutamate/ GABA modulate adolescent anabolic steroid-induced aggression.</i>
2006-2008	Glenn Coppersmith, Doctoral Dissertation in Psychology <i>Mediators and modulators of aggression subtype in referred-youth.</i>
2005-2007	Shannon Fischer, Master’s Thesis in Psychology <i>Glutamate modulates adolescent anabolic steroid-induced aggression.</i>

- 2003-2005 Khampaseuth Rasakham, Masters Thesis in Psychology
Adolescent anabolic steroids, serotonin/ vasopressin, and aggression.
- 2001-2006 Jill Grimes, Doctoral Dissertation in Psychology
Serotonin/GABA modulate adolescent anabolic steroid-induced aggression.
- 2001-2005 Lesley Ricci, Doctoral Dissertation in Psychology
Serotonin type-3 receptors modulate adolescent cocaine-induced aggression.
- 1996-1997 Paula DeDiego, Masters Thesis in Biology
Fitchburg State College, Fitchburg, Massachusetts
Developmental Effects of Haloperidol on Vasopressin in Hamsters.
- 1994-1995 Mark Tiffany, Masters Thesis in Biology
Clark University, Worcester, Massachusetts
Molecular Cloning of the Hamster Vasopressin V1A-Subtype Receptor.
- 1993-1998 Yung Yin, Doctoral Dissertation in Biomedical Science
Worcester Polytechnic Institute, Worcester, Massachusetts
Generation and analysis of synaptophysin "knock-out" PC12 cells.

Undergraduate Students Advised

NIDA Undergraduate Summer Fellowship Program

- 2005 Diana Joshua, University of the Virgin Islands, St. Thomas, Virgin Islands
- 2004 Jasmin Courtney, Spelman College, Atlanta, Georgia
- 2003-2004 Inzhili Ismail, Virginia Union University, Richmond, Virginia
- 2002 Yasmin A. Ahmedi, University of Washington, Seattle, Washington
- 2001 Monique Bailey, Lincoln University, Lincoln University, Pennsylvania

Undergraduate Honors Thesis

- 2007 Robin Ortiz, *Dopamine receptors in an animal model of Parkinson's Disease*
- 2003-2005 Thomas McCann, *Dopamine D2 receptors modulate cocaine-induced aggression.*
- 2002-2003 Irina Knyshevski, *Dopamine modulates adolescent cocaine-induced aggression.*
- 1999-2001 Julie Cunningham, *Psychosocial risk and aggression in referred youth.*
- 1999-2000 Christina DiTomasso, *Abuse history and aggression: A retrospective study.*
- 1999-2000 Jennifer Berg, *Developmental social stress and sensitization to cocaine.*
- 1995-1998 Cristine Novak, The College of the Holy Cross, Worcester, Massachusetts, *Animal models of substance abuse and aggression*
- 1996 1995-1996 Nadeem Syed and Rajesh Nandwani, Worcester Polytechnic Institute, Worcester, Massachusetts, *Cloning and sequencing of the hamster serotonin 1B receptor*
- 1993-1998 Marcel Roy, Clark University, Worcester, Massachusetts, *Sequencing and expression of the hamster vasopressin V1a receptor*
